THOMAS A. MORGAN (pictured in insert), president of the Sperry Corporation, world's largest manufacturers of aeronautical and marine instruments, received his early technical training in the U.S. Navy, in which he enlisted as a young man. "This has proved of great value to me in later years," said ex-sailor Morgan. Pictured above are new Navy recruits receiving electrical training at one of the modernly equipped Navy Trade Schools. The Navy offers training to young men in nearly 50 different trades and vocations.

LEARN TO BE A ALTI

FREE training

DIGHT NOW planes America's factories by the thousands. Aviation is America's fastest-growing industry. The opportunities for trained men, now and in the future, are almost unlimited. That's why the United States Navy's offer of FREE AVIATION MAINTENANCE TRAINING is so exceptional. Because in the Navy you may, if quali fied, get the finest aviation training in the world absolutely without cost to you. And on top of it, you earn while you learn!

Variety of Aviation jobs

There is a variety of jobs in Navy aviation. Some may become experts in Aviation Metalsmithing . . . specializing in welding, brazing, electroplating and the other crafts essential to the cutting and fitting of metal parts of planes. Others, as Aviation Machinist's Mates, operate, care for and repair aviation engines. While some become specialists as Aviation Radiomen. Think of the future now. Any branch of this training would fit you for important jobs in the years to come.

But aviation offers only one of the many opportunities for you in America's new two-ocean Navy. There are actually 45 skilled trades and vocations which the Navy may teach you if you are qualified. If you are interested in radio work, engineering, aerial photography, carpentry, pharmacy, welding, the Navy may train you to become an expert in your chosen

If you apply yourself, advancement and increases in pay will follow regularly. Before the
